1. Nature of Operations and Continued Operations

Candente Gold Corp. ("Candente Gold" or "the Company") was incorporated under the Business Corporations Act (British Columbia) on April 24, 2009. Candente Gold and its subsidiary companies are engaged in precious metals exploration in Mexico and Peru.

The Company has not yet determined whether its mineral properties contain reserves that are economically recoverable.

The accompanying consolidated financial statements have been prepared using Canadian generally accepted accounting principles applicable to a going concern. At June 30, 2010, the Company had no source of operating cash flow, an accumulated deficit of \$3,102,371 and working capital of \$4,511,185. Operations of the Company to date have been funded from a private placement financing completed by the Company in the fiscal period ended March 31, 2010.

These consolidated financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. Adverse conditions may cast substantial doubt upon the validity of this assumption. In the event the Company is unable to raise adequate future financing to fund operations and meet contractual obligations, the carrying value of the Company's assets could be subject to material adjustments. The accompanying financial statements do not reflect adjustments to the carrying values of assets and liabilities which may be required should the Company be unable to continue as a going concern.

The amounts shown as mineral properties represent acquisition costs to date and do not necessarily represent present or future values. Recoverability of the amounts shown for mineral properties is dependent upon the discovery of economically recoverable mineral reserves, securing and maintaining title and beneficial interest in the properties, the ability of the Company to obtain financing necessary to complete the exploration and development of its mineral property interests, and on future profitable production or the profitable disposition of the Company's mineral property interests.

2. Basis of Presentation

The financial statements of the Company have been prepared in accordance with Canadian Generally Accepted Accounting Principles for interim financial statements and therefore do not include all of the information and notes required for annual financial statements. These statements follow the same accounting policies and methods of application as the most recent annual financial statements. Accordingly, they should be read in conjunction with Candente Gold's audited financial statements for the fiscal period ended March 31, 2010.

3. Accounting Pronouncements

Business Combinations, Consolidated Financial Statements and Non-controlling interest

For interim and annual financial statements relating to its fiscal year commencing on or after April 1, 2011, the Company will be required to adopt new CICA Section 1582 "Business Combinations", Section 1601 "Consolidated Financial Statements" and Section 1602 "Non-Controlling Interests". Section 1582 replaces existing Section 1581 "Business Combinations", and Sections 1601 and 1602 together replace Section 1600 "Consolidated Financial Statements." The adoption of Sections 1582 and collectively, 1601 and 1602 provides the Canadian equivalent to IFRS 3 "Business Combinations" and International Accounting Standard IAS 27 "Consolidated and Separate Financial Statements" respectively. The impact of adopting these new standards has not yet been assessed and cannot reasonably be estimated at this time.

4. Transfer of Gold-Silver Properties from Candente Copper

On April 24, 2009, Candente Copper Corp. ("Candente Copper", formerly Candente Resource Corp.) and Canaco Resources Inc. ("Canaco") incorporated Candente Gold.

Candente Gold's focus is on exploration and development of precious metals projects in Latin America.

On April 30, 2009, Candente Copper and Canaco completed the transfer to Candente Gold of their respective 50% interests in Minera CCM, S.A. de C.V. ("CCM"), the Mexican company that holds an option on the El Oro gold property ("El Oro") in Mexico (the "Option"). As consideration for the transfer of the El Oro interests, Candente Gold issued 5 million common shares and a promissory note to each of Candente Copper and Canaco. Each promissory note has a principal amount of Cdn\$1,300,000 (\$1,239,157 at December 31, 2009), payable in cash or convertible into units of Candente Gold, based on the same terms and conditions as the private placement financing completed by Candente Gold in the quarter ended December 31, 2009. On December 31, 2009, Candente Copper converted its Cdn\$1,300,000 promissory note into 3,250,000 shares and 1,625,000 warrants of the Company. The warrants have an exercise price of Cdn\$0.60 per common share to January 4, 2012 (Note 9). Canaco advised the Company that it would not convert its promissory note, and the Company paid Cdn\$350,000 of the principal on June 30, 2010. The Cdn\$950,000 that remains outstanding must be paid by the Company on or before April 30, 2011.

The Company recorded contributed surplus of \$52,046 in connection with the transfer of the el Oro Property, as follows:

<hr/>	
Assets acquired:	
Cash	22,247
Accounts receivable	22,356
Equipment, net	9,226
Mineral properties	2,150,871
Liabilities assumed:	
Accounts payable	(4,817)
Consideration:	
Promissory notes	(2,147,837)
Contributed surplus	52,046
<hr/>	

In addition, Candente Copper transferred its Peruvian gold-silver properties (the "Properties") to Candente Gold in the quarter ending December 31, 2009 and on January 6, 2010 the Company issued 13,500,000 common shares (Note 7(b)) to Candente Copper in return for the transfer of the Properties. Other consideration for the exchange of the Properties included the granting by the Company of a copper net smelter return royalty to Candente Copper. In addition, Candente Gold agreed to issue to Candente Copper an additional 10,000,000 of its common shares once a minimum of US\$5 million has been spent cumulatively by Candente Gold on the Properties.

The Company accounted for consideration in respect of the 13,500,000 Candente Gold shares at a value of \$4,422,011, comprised of the Candente Copper carrying cost of \$4,663,251 less \$241,240 due in cash to Candente Copper in respect of annual license costs paid for the Properties in 2009 by Candente Copper.

Pursuant to TSX policy, on January 6, 2010 the Company was deemed to have issued 872,890 Company warrants ("Company Deemed Warrants") to warrant holders of Candente Copper on the basis of one Company warrant for every five warrants in Candente Copper outstanding at that date. The 4,364,450 Candente Copper warrants (the "Copper Warrants") then outstanding had exercises prices ranging from Cdn\$1.75 to Cdn\$2.00. All of the Copper Warrants and Company Deemed Warrants expired unexercised on June 26, 2010.

Also pursuant to TSX policy, on January 6, 2010 the Company was deemed to have issued 1,638,350 Company options ("Company Deemed Options") to option holders of Candente Copper on the basis of one Company option for every five options in Candente Copper outstanding at that date. The 8,191,750 Candente Copper options (the "Copper Options") then outstanding had exercise prices ranging from Cdn\$0.42 to Cdn\$1.40 and expiry dates from January 3, 2011 to November 24, 2014. A total of 2,373,000 of the Copper Options and 474,600 of the Company Deemed Options were forfeited before March 31, 2010. The Company will receive or has received 24.06% of the exercise price on the exercise of the Copper Options, based on a predetermined

formula that considered the weighted average prices of Candente Copper and Candente Gold on the first five days of Candente Gold's trading on the TSX.

5. Mineral Properties

At June 30, 2010, mineral properties were comprised of interests in mineral claims and mining concessions located in Mexico and Peru. These interests are held by the Company, or through option agreements under which the Company, directly or through a joint venture arrangement, has a right to acquire an interest in mineral properties.

Acquisition costs are capitalized. Exploration expenditures are charged to operations in the period they are incurred.

The following are the capitalized mineral property acquisition costs at March 31 and June 30, 2010:

	June 30, 2010	March 31, 2010
El Oro		
Acquisition costs	2,363,505	2,245,033
Peruvian Properties		
Acquisition costs	4,950,530	4,663,251
	<u>7,314,035</u>	<u>6,908,284</u>

On April 30, 2009, the Company completed the transfer of the El Oro property from Candente Copper at a cost of \$2,150,871 (Note 4).

On May 5, 2006, CCM, Candente Copper and Canaco entered into a letter agreement (the "2006 Agreement") with Luismin, S.A. de C.V. ("Luismin") and Desarrollos Mineros San Luis, S.A. de C.V. ("Desarrollos"), subsidiaries of Goldcorp Inc., that provided CCM with an option (the "Option") to acquire up to a 70% undivided interest in El Oro, subject to a 40% back-in right, in 24 mining concessions comprising approximately 14,950 hectares located in the states of Mexico and Michoacan, Mexico. Certain exploration and mining concessions included in El Oro are subject to net smelter returns royalties. The Option is comprised of an option to initially acquire 50% of El Oro (the "First Option") and then a further 20% (the "Second Option"), and both the issue of shares and the completion of certain levels of exploration expenditures on El Oro are required to exercise the Option.

A total of \$1,700,000 in exploration expenditures had been made on El Oro by November 30, 2008, and on or before November 30, 2008 Candente Copper and Canaco issued to Luismin a total of 125,000 shares in each of their respective registered capital, all as required by the 2006 Agreement as part of the consideration for the exercise of the First Option.

In two separate letter agreements dated February 2, 2009 (the "February 2009 Agreement") and September 30, 2009 (the "September 2009 Agreement"), the parties agreed to certain amendments to the 2006 Agreement. The most significant change was the removal of the back-in right on the historic mining area which covers all known gold and silver bearing veins. In accordance with the terms of the 2006 Agreement, as amended, each of Candente Copper and Canaco committed to issue to Luismin 125,000 common shares in their respective share capital on or before November 30, 2009 (completed), and agreed that in order to exercise the First Option the Company would:

- Commit to issue to Luismin 250,000 Candente Gold shares on or before November 30, 2009 and 250,000 Candente Gold shares on or before May 30, 2010 (completed);
- Be required to issue to Luismin 250,000 Candente Gold shares on or before November 30, 2010 and 250,000 Candente Gold shares on or before November 30, 2010;

The 2006 Agreement, as amended, now provides that in order to exercise the Second Option the Company is:
